Thank You Members for Your Participation

CNMEC would like to thank each and everyone of you who attended our Annual Meeting this year. Officially 276 members registered and the required quorum was 210. Business was conducted and minutes were approved from 2006, 2007, 2008 and 2009. Jerry Britton and J.T. Turner retained their positions on the board of trustees. We want to thank Jody Niesen, Craig Brown and Steven Grabiel for participating in the election process.

During the registration, issues arose that we would like to address. Things have changed over the years and due to current identity theft laws, which CNMEC must abide by, we can only give you information on the accounts that have your name listed on the bill. Even if you've been married for 30 years and you're the one who pays the bills, if your name is not listed on the account, we cannot give you information on that account and you may not vote for that account in the election. If you're not on the account, please come into our office now and have your spouse add your name to the account so we can conduct business with you on the account. If your spouse passed away and you're not listed on the account, please bring in your spouse's death certificate and a current picture ID and we will update the account accordingly.

Important Notice

The Federal Trade Commission Rule 16 CFR Part 681.2, states that all utilities must require that consumers create a password or provide the proper identification to gain access to their account information. This "Identity Theft Rule" or "Red Flag Rule" as it is sometimes referred to as, was created to protect the consumer from identity theft. In order for CNMEC to comply with this rule we are requesting that you complete the form attached and bring it into our Mountainair office or Moriarty office. Although we are forced to comply with this rule we want you to know that we appreciate your understanding regarding this new procedure. If you have any questions, please contact our member service representatives at 505-832-4483.

Please fill out the following information and bring into our office. Thank you.

Name/ names on account _____

Address _____

City/State _____

Zip code _____

Phone # _____

Password or last four digits of Social Security number _____

Password must contain 6-22 characters, alpha and numeric. Example: bakeon123

Security question _____

Security answer _____

Vacation Time for You Doesn't Mean Your Meter Takes Off Too

Your electric bill will not show a dramatic decrease just because you go on vacation.

Your meter will still measure:

- Clocks, heating or air conditioning equipment, lights and TV sets with the "instant-on" feature.
- Electric water heaters.
- Refrigerators and freezers.

Together we can determine what your meter should do while you're away. So, call us at 505-832-4483 or visit our office today. We want you to have a warm welcome and comfortable return to your home.

Signs Create Hazards

It's unlawful to attach anything to electric power poles. Any obstruction such as a sign—sometimes many signs—on the same pole, makes it dangerous to climb.

When a lineman uses his hooks to climb a pole, particularly at night or during a storm, the sign or fastener becomes a hazard. If this happens the lineman could fall and be injured. Worse yet, the nail or staple could tear the lineman's protective gloves worn when working near energized electric lines, creating the danger of electrocution.

So please, for continued safety of our cooperative employees, do not install signs of any kind on power line poles.

Board of Trustees			
Jerry Britton	President	Moriarty	District 5
